Errata Information for ZLX Smart Frame Buffer Owner's Manual

January 1994

This Errata contains corrected or updated information that you should include with your copy of the ZLX Smart Frame Buffer Owner's Manual, part number EK-SMFBP-SG. A01.

Pages 8 and 9

The switch settings in Table 1 are listed in a decimal base. The switch uses a hexadecimal base. The table should read as follows:

    10 = A
    11 = B
    12 = C
    13 = D
    14 = E
    15 = F

Switch setting 5 supports the VRC16-HA/H4 monitor.
Switch setting 9 does not support the VRC16-CA/C4 or HA4 monitors.
Switch setting A does not support the VRC16-CA/C4 and HA4 monitors.

Page 16

The correct part number of the StereoGraphics cable for the ZLX option is 69990, and has the following description: DEC EMITTER CABLE MINI-STEREO TO BNC MST-BNC.

StereoGraphics is currently shipping a cable with a metal housing that can interfere with the system bulkhead, thus not allowing the cable to make full contact. Please contact StereoGraphics for the plastic molded housing version of this connector.

In Table 6, correct the dimensions of the module as follows:

    Height – 144.05 mm (5.67 in)
    Width   – 116.84 mm (4.6 in)
    Depth   – 26.4 mm (1.04 in)
