AlphaPC 164LX Motherboard Errata Sheet

June 11, 1997

Please be advised that the following issues pertain to the AlphaPC 164LX motherboard product:

- Compatibility problems exist between the AlphaPC 164LX motherboard and QLogic SCSI controller chips (ISP1020 and ISP1040).
- Due to the fact that we have not verified this product in server configurations, we do not recommend its use with multiple SCSI controllers or a Windows NT server.

DIGITAL recommends that you do not implement these configurations with the AlphaPC 164LX motherboard.
