

HP X.25 for OpenVMS Alpha and I64 Systems, Version 2.0

July 2005

Dear Customer:

Thank you for purchasing HP X.25 for OpenVMS Alpha and I64 Systems V2.0 software. For a complete description of this product, see the HP X.25 for OpenVMS Alpha and I64 Systems, V2.0 Software Product Description (SPD 47.37.16).

New Features

- Support for OpenVMS I64 Versions 8.2 and 8.2-1
- Support for OpenVMS Alpha Version 8.2

OpenVMS Alpha and I64 Software Products Library

HP X.25 OpenVMS Alpha and I64 Systems V2.0 software and documentation ship on the OpenVMS Alpha and I64 Layered Product CD-ROM distribution:

- The OpenVMS Alpha and I64 Software Product Library CD-ROM contains the installable software kit, Release Notes, Software Product Description (SPD), and cover letter in ASCII (.TXT) and PostScript (.PS) formats.
- The OpenVMS Alpha and I64 Online Documentation Library CD-ROM contains user documentation in PDF format.

The *OpenVMS Alpha and I64 Layered Products Compact Disc User's Guide* booklet (CD booklet) and a *Read First* letter accompanies the CD distribution kit. The CD booklet:

- describes the directory names on the Software Product Library CD where product subsets are located and
- lists the documentation files on the Online Documentation Library CD provided for each product.

The following manuals are provided in PDF format on the documentation CD:

- *X.25 for OpenVMS Alpha and I64 Systems—Management Guide*
- *X.25 for OpenVMS Alpha and I64 Systems—Security Guide*
- *X.25 for OpenVMS Alpha and I64 Systems—Problem Solving Guide*
- *X.25 for OpenVMS Alpha and I64 Systems—Accounting Guide*
- *X.25 for OpenVMS Alpha and I64 Systems—Configuration Guide*
- *X.25 for OpenVMS Alpha and I64 Systems—Programming Guide*
- *X.25 for OpenVMS Alpha and I64 Systems—Programming Reference Manual*

- *X.25 for OpenVMS Alpha and I64 Systems—Utilities Guide*
- *DECnet/OSI for VMS—VAX WANDD Programming*

You may also order a hardcopy X.25 documentation kit using the following order number: BA390MN.

Installation Information

Installing HP X.25 V2.0 for OpenVMS Alpha requires the following:

- OpenVMS Alpha Operating System Version 8.2 and DECnet-Plus Version 8.2

Installing HP X.25 V2.0 for OpenVMS I64 requires the following:

- OpenVMS I64 Operating System Version 8.2 and 8.2-1 and DECnet-Plus Version 8.2 and 8.2-1

PRE-INSTALLATION WARNING ADVISORY

If you currently have Version 1.2, 1.3, 1.4, 1.5, 1.5A or 1.6 software installed, you do not need to remove any X.25 software before installing the Version 2.0 software.

The Release Notes for X.25 contain installation instructions and a summary of technical changes, known problems, restrictions, and incompatibilities. HP recommends that you read the Release Notes before installing X.25. The release notes are located on the OpenVMS Alpha Software Product Library CD-ROM in PostScript (.PS) and ASCII (.TXT) form.

License Management Facility (LMF) Information

A License Management Facility (LMF) Product Authorization Key (PAK) allows you to access a software product and its documentation. A PAK must be registered and loaded before you can install X.25 from the HP CD-ROM Software Library for OpenVMS Alpha and I64 Layered Products. Refer to the *CD Read First* letter for information on LMF requirements needed to read the X.25 documentation.

HP Services

A variety of service and support options are available from HP. For more information, contact your local HP sales office.
