

# Comprehensive reporting to assist with migration planning

## Migration Advisor™ from PointSecure

### Planning to migrate to an HP Integrity system?

Avoid snags, delays, and interruptions with new Migration Advisor from PointSecure!

#### Migration Advisor

Before you migrate to an HP Integrity System, it is very important that you are aware of all applications running on your current OpenVMS systems. Not only will you want to ensure that every required application is available on the new platform, you'll also want to know (BEFORE you migrate) that all applications will be supported by the new platform. This will help you avoid surprises and unnecessary delays in your migration process.

New Migration Advisor from PointSecure is an indispensable migration tool that will quickly and easily scan and analyze OpenVMS systems to determine which applications are installed. It will then provide a complete picture of all products installed with details such as the names of all third-party products, layered products, version information, and more. Scans performed by Migration Advisor are non-intrusive, PC-based and low-impact. All results are shown in an easy-to-read report.

Whether you have one, ten, or hundreds of OpenVMS systems in your organization, new Migration Advisor which will save you hours of time and help to ensure that your migration to the new OpenVMS platform goes smoothly!

#### Product Highlights
