

Re-branding Reference Guide

As part of the Compaq/HP merger, we are beginning the process of re-branding servers and the products used to manage servers. Compaq Management Agents will be re-branded as the HP Insight Management Agents and Compaq Insight Manager 7 will be re-branded Insight Manager 7. The newly renamed software will be referenced in pertinent documentation.

As part of the re-branding process, you may notice some inconsistency between product user interfaces and documentation: some screenshots, legacy applications, or documents might still reference old product names or include pre-merger Compaq logos and icons. In all cases, the name “Compaq Management Agents” is equivalent to “HP Insight Management Agents” and “Compaq Insight Manager 7” is equivalent to “Insight Manager 7”.

For your convenience, we have included the following table that outlines the pre-merger Compaq and post-merger HP names for the management software products included on the Management CD and on this web site.

Compaq product names and references	New re-branded HP product names and reference
Compaq Management Agents	HP Insight Management Agents <ul style="list-style-type: none"> • Insight Management Agents (2nd reference) • management agents (where space constrained)
Compaq Web-enabled Management Agents	HP Insight Management Agents <ul style="list-style-type: none"> • Insight Management Agents (2nd reference) • management agents (where space constrained)
Compaq Server Management Agents	HP Insight Management Agents <ul style="list-style-type: none"> • Insight Management Agents (2nd reference) • management agents (where space constrained)
Web-enabled Compaq Management Agents for Servers	HP Insight Management Agents <ul style="list-style-type: none"> • Insight Management Agents (2nd reference) • management agents (where space constrained)
