

OpenVMS Software licensing terms

Solution brief

Overview

The summary of terms and conditions below is a reference for end users or purchasing agents. Documents maintained by the HP Legal team should be consulted if greater detail is required.

- End User License Agreement (EULA)
- Customer Agreement Master (CAM)

OpenVMS license types and business policies add further terms or policies for use of software:

- **License types:** Per socket, Per core, Per server, and Per cluster are defined in this document.
- **Rights to new versions:** Are delivered through your valid Support Agreement.

Summary of terms and conditions

The following is a summary of terms contained in the EULA. The EULA is included with the software and is available from your HP sales representative. Please refer to the EULA for the full terms.

HP grants you the right to use one copy of the software in object code form on one device at a time for your internal business purposes unless otherwise indicated. Your use is subject to the license terms delivered with the software. **(EULA Section 2a) (CAM07 C1)**

You may not transfer the software except as authorized by HP. **(EULA Section 2a, 7a) (CAM07 5d)**

The license terms do not confer title or ownership and is not a sale of rights in the software. **(EULA Section 2b) (CAM07 C2)**

You may make copies only for archives or backup. You may not make the software available on any public network. **(EULA Section 2c) (CAM07 5c)**

The original software purchase does not grant any right to purchase or receive updates, upgrades, or support. **(EULA Section 2d) (CAM07 4c)**

You may not modify, reverse engineer, or make derivative works of the software. **(EULA Section 2h) (CAM07 5f)**

Any ancillary software licensed to you is subject to the terms and conditions of the license that accompanies the ancillary software. **(EULA Section 2k)**

The software warranty period is 90 days for HP Branded software. This is a warranty that the physical media will be free from defects and viruses. There is no warranty that the software will be error-free. Please see the EULA for complete warranty terms. **(EULA Sections 3a, 3b, 3c) (CAM07 10, 11, 12)**

The EULA should be consulted for terms regarding intellectual property infringement and limitation of liability. **(EULA Sections 4, 5) (CAM07 A8)**

If you export, re-export, or import software you are responsible for complying with applicable laws and regulations. **(EULA Section 7a) (CAM07 A12e)**

The EULA should be consulted for terms regarding software for U. S. Government contracts. **(EULA Section 7b) (CAM07 C8)**

You agree that HP may audit your compliance. **(EULA Section 7d) (CAM07 C9)**

OpenVMS license types

Per-Processor Core License

A Per-Processor Core License (PCL) grants the right to use a software product by an unlimited number of users on a single processor core. One PCL is required

for each active processor core on a system or hard partition. Use of the software is limited to a specified operating system and a specified hardware platform.

Per Socket Core License

A Per Socket Core License (PSL) grants the right to use a software product by an unlimited number of users on a single processor or socket. One PSL is required for each active socket on a system or hard partition. Use of the software is limited to a specified operating system and a specified hardware platform.

Per Server License

This license grants the right to use the software on a single system/processor.

Rights to new versions

For OpenVMS Software, the purchase of a license entitles the customer to use the software version shipping at the time the license is purchased, and also to use previous versions of the software. Rights to new versions are provided only through a support agreement.
